

GOLD CHISEL

The Ultimate Chisel Tribute

Gold Chisel – The Ultimate Chisel Tribute, promise to bring to your venue the most powerful, energy fuelled, entertaining Chisel cover tribute show yet. To be seen Gold Chisel recreates the songs and sounds of one of Australia’s most well known and popular Rock n Roll bands to date.

Fronting the band is Glenn Wallis, formally the lead singer and founder of Barnestormin’ The Barnes – Chisel Show. With his amazing, powerful, vocal qualities coupled with 20 years professional singing experience. Gold Chisel presents a sound so close to the original you will need to look twice to check that it is not Barnes himself singing.

Completing the line up is a four-piece band consisting of drums, guitar, bass and live keyboards. All players of the outfit are seasoned, professional musicians in their own right. With the complete and competent vocal harmonies, Gold Chisel more than recreates Cold Chisel to the point where your venue, promoter’s and the audience, are guaranteed a night of total satisfaction.

Gold Chisel comes complete with an amazing package of production and lighting show that recreates a night with Cold Chisel live.
