

## **Acoustic Craving Bio**

**Acoustic Craving** is a group run by professional musicians, we do this for a living and therefore we care and have over ten years experience playing live music.

The members have played **IN** the bands of Dragon, Human Nature, Tommy Emmanuel, The Bushwackers & Slim Dusty in front of crowds up to 30,000 people! We are all great friends tired of travelling so this is what we do now! - so hiring Acoustic Craving provides premium performance and total peace of mind.

**Acoustic Craving** is principally a Trio (bass, drums and guitar) but with the added benefit of **two lead vocalists**. If you require a larger band we can easily augment the group with a female singer, saxophone, piano anything you desire.

We play everything from dinner music to a selection of guaranteed hits from the 60's, 70's, 80's, 90's & this year to get you and your guests on the floor and having a great time. Please call the number below if you would like to know more .....our songlist is constantly being updated so we are more than happy to fax or email it to you on request.
