

Comic MCs

For conferences and events

We create delightful MC characters

....to give flair and context to all kinds of gatherings by using our expertise in costume, performance and improvisation.

The MC's function is to create a relationship with the audience that's about great interaction, clear delivery of information, working the crowd and having fun.

We can ensure that your event runs smoothly and to time, hassle free. We see to it that your audience knows what its there for ... creating warmth, connection and a sense of occasion.

We know how audiences work, we know how to;

- Warm them up for keynote speakers,
- Calm them down when they need to hear something,
- Get them feeling loose and happy
- Wake them up if its late in the day
- Get them to misbehave, let their hair down.
- Rev them up when its time to party!

And when the unexpected happens,
We know how to fill the gap, how to have fun and make them laugh.
