

# Californication Biography

## about us

Established in early 2004, Californication - the all new Red Hot Chili Peppers Show, aims to deliver Australia's tribute to one of the world's most popular and distinguishable bands: the Red Hot Chili Peppers.

Californication recreates an authentic and live experience that is, the Red Hot Chili Peppers. The Chili Peppers themselves first came to prominence 20 years ago by fusing funk, rock and rap music styles through their many ground-breaking albums. A typical 90 minute show performed by Californication includes all the big hits and smash anthems that have made the Chili Peppers such an enduring global act. From their break-through cover of Stevie Wonder's Higher Ground to the multi-platinum singles Give it Away, Under the Bridge and Breaking the Girl; as well as Aeroplane, Scar Tissue, Otherside and Californication; fans of the Chili Peppers' music will never walk away disappointed.

Fronted by Johnny, the vocalist of the Red Hot Chili Peppers Show captures all the stage antics and high energy required to emulate Anthony Kiedis, while the rest of the band carry out the very essence of the Red Hot Chili Peppers through the attention of musical detail and a stunning visual performance worthy of the famous LA-based quartet.

And now, exclusively supported by the exciting, up-coming party band [Big Way Out](#), you can be guaranteed an enjoyable night's worth of entertainment. Be prepared to experience Californication - the Red Hot Chili Peppers Show.

Coming soon to a venue near you!
