

# Unforgiven Bio

GIVE ME FUEL,  
GIVE ME FIRE,  
GIVE ME THE UNFORGIVEN METALLICA SHOW!!!

Metallica is widely considered to be the most popular and influential heavy metal band of the past two decades. During the 1980s the group sold millions of albums through relentless touring and positive word of mouth, despite virtually no radio play or publicity. During the 1990s their sound became more complex and the group embraced radio and MTV to further expand their enormous fan base.

The Unforgiven Metallica Show recreates the journey of the 25 years of Metallica mayhem from their debut album Kill Em All to their current raw produced album St Anger. Be prepared for tracks like Seek and Destroy, Ride the Lightning, Creeping Death, Master of Puppets, Blackened, One, Sandman, Fuel, Frantic etc. Fronted by Johnny, the vocalist/guitarist of The Unforgiven captures all the stage antics and high energy required to emulate Jaymz Hetfield, while the rest of the band carry out the very essence of Metallica through the attention to musical detail and a stunning visual performance worthy of the famous Bay area-based quartet, in an outstanding Non Stop 2 hour Show.. ARE YOU READY!!

Be prepared to experience the no1 tribute THE UNFORGIVEN - METALLICA SHOW.

Coming soon to a venue near you! Not for the faint hearted. Band will not be held responsible for health conditions.
